CYROTICS TECHNOLOGIES (OPC) PRIVATE LIMITED

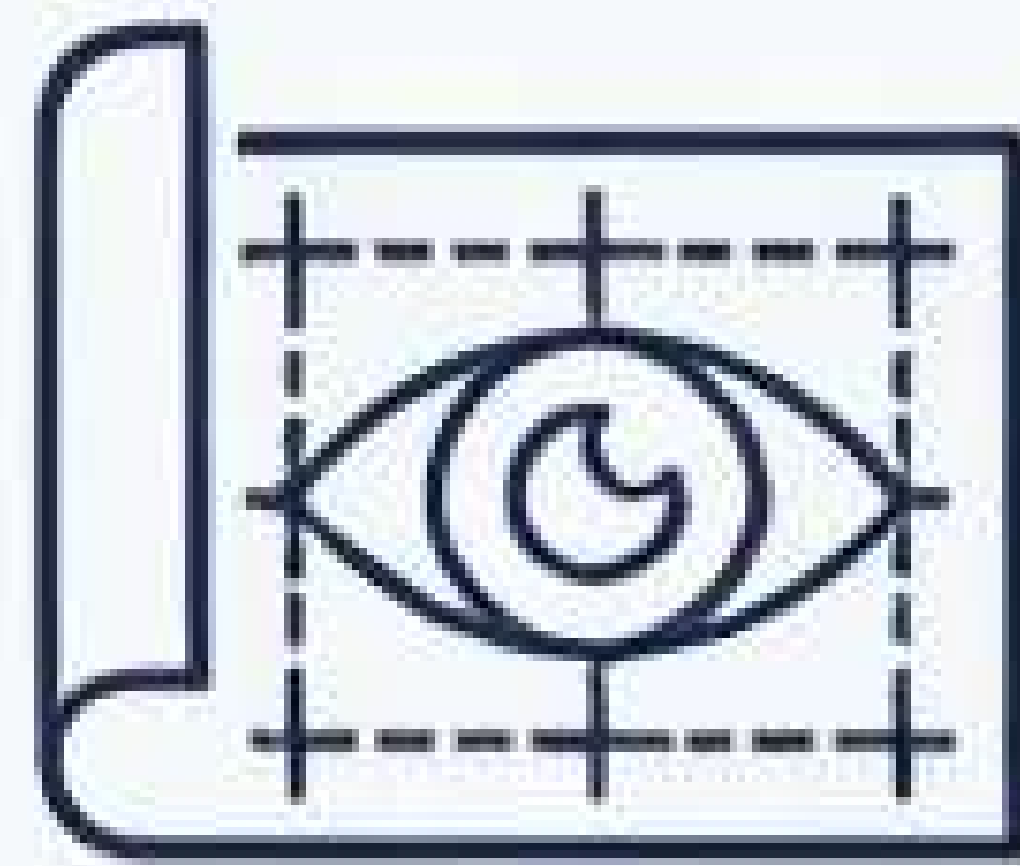

Engineering a Secure & Connected Future

We Architect the Digital Foundation for India's Growth.

Cyrotics Technologies is a future-focused engineering and technology services company delivering secure, scalable, and intelligent infrastructure solutions across India. We specialize in building the mission-critical systems that power government and enterprise.

Our Guiding Principles for a Future-Ready India.

Our Vision

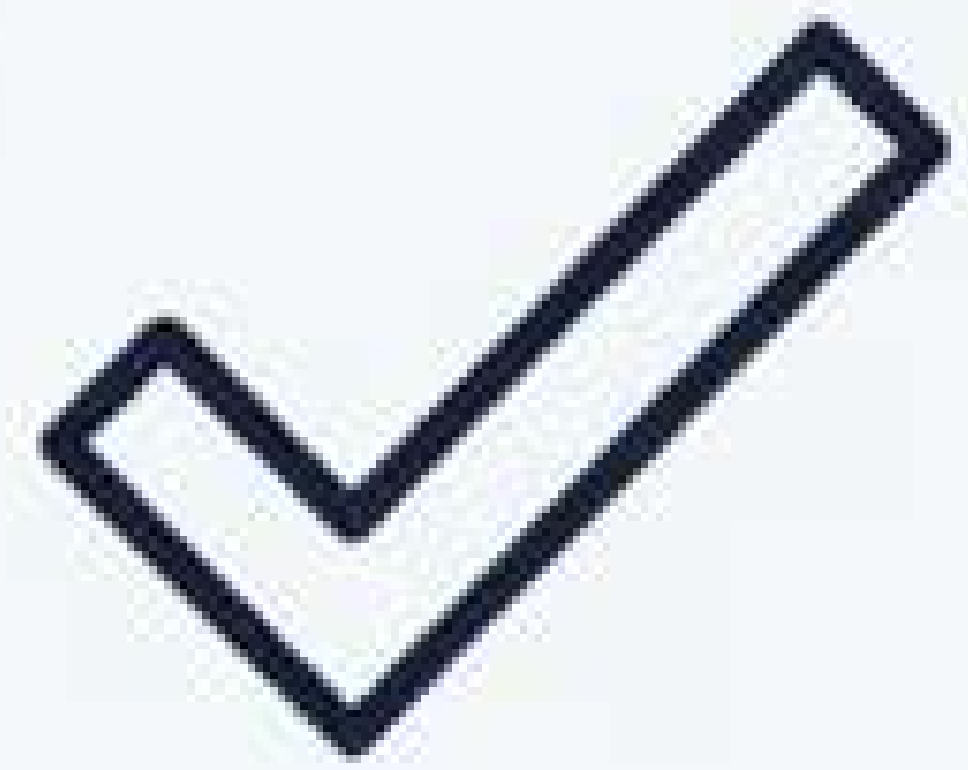

To become a trusted technology partner for secure and future-ready digital infrastructure.

Our Mission in Action

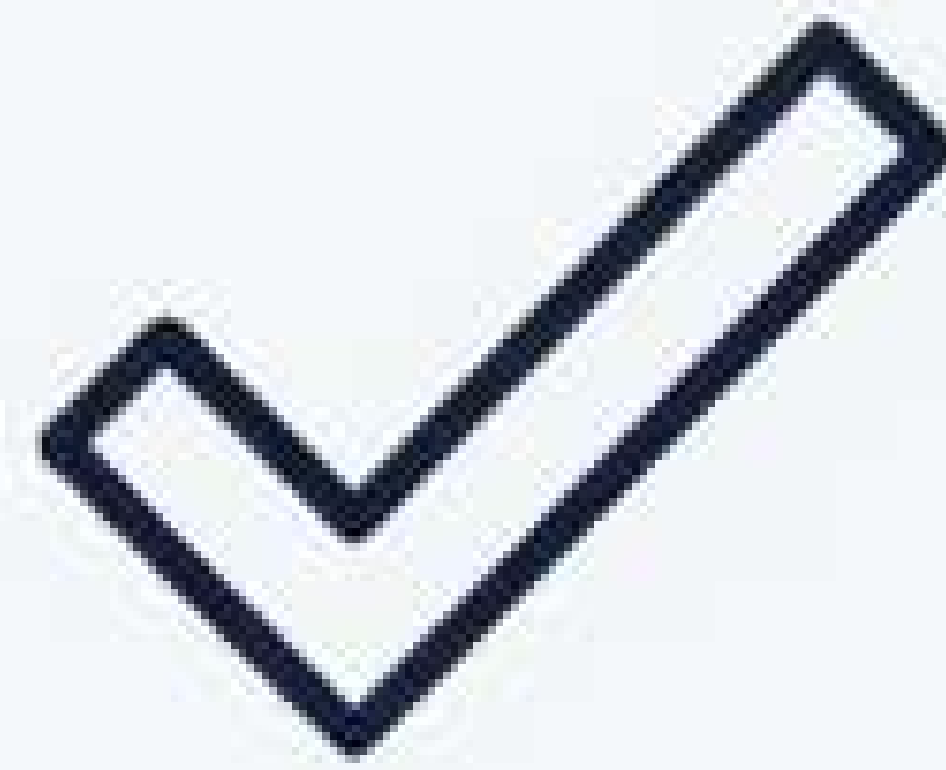

-  Secure digital transformation
-  Scalable engineering solutions
-  Compliance-driven execution
-  Long-term customer value

Our Approach is Defined by Engineering Rigor and a Security-First Mindset.

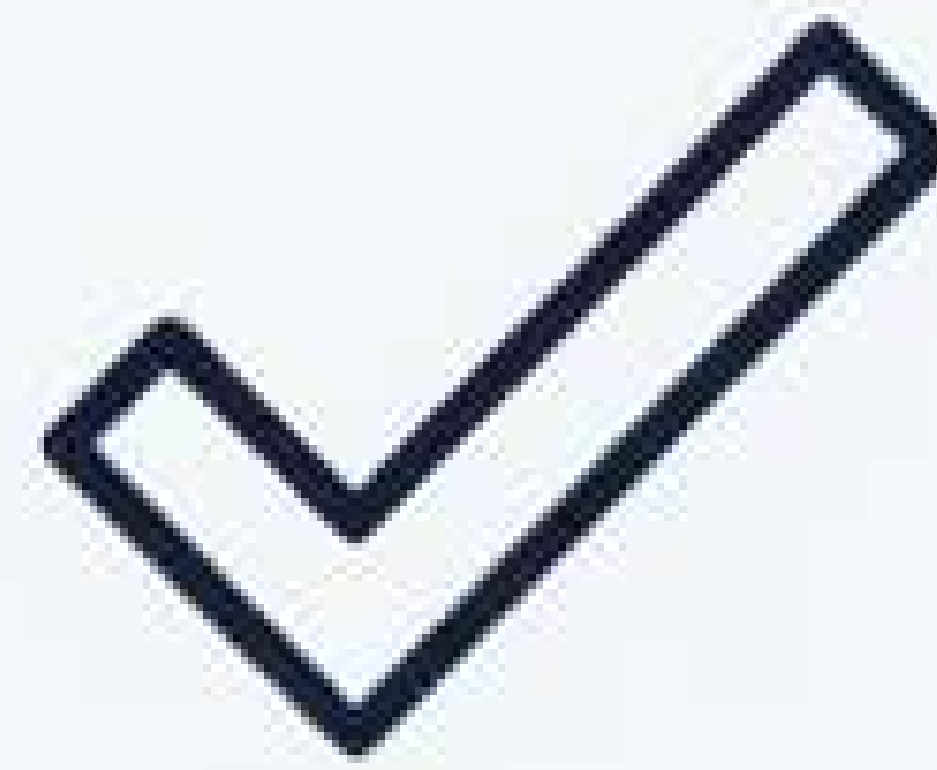

Engineering-Driven Approach

Our solutions are built on a foundation of deep technical expertise, not just product sales.

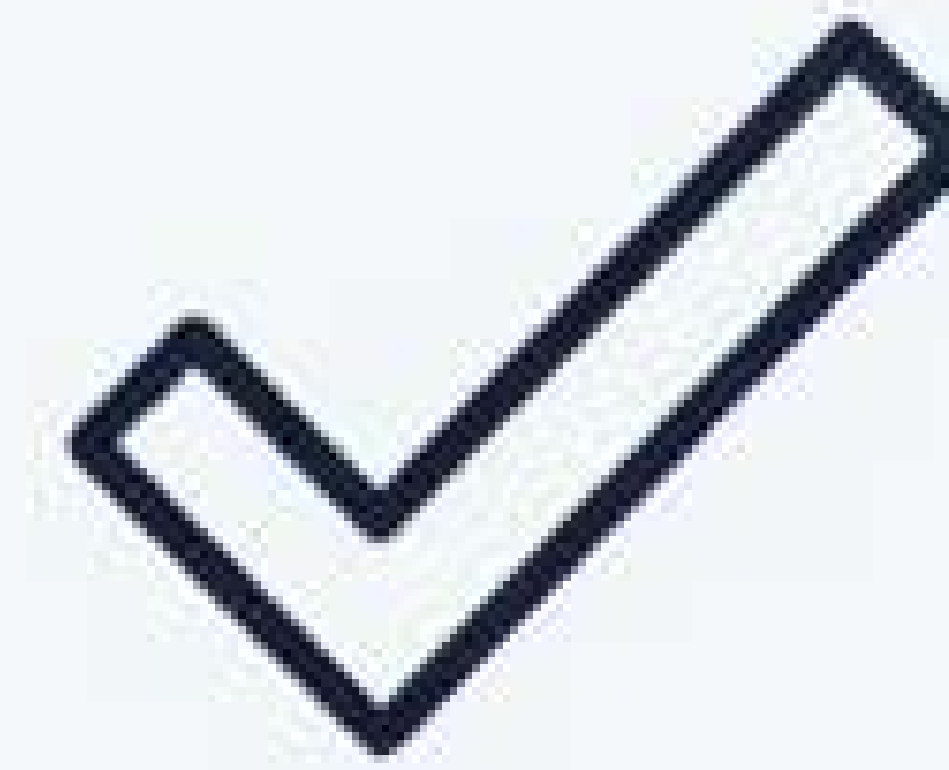

Security-First Design

We embed security into the architecture from day one, adhering to principles like Zero Trust.

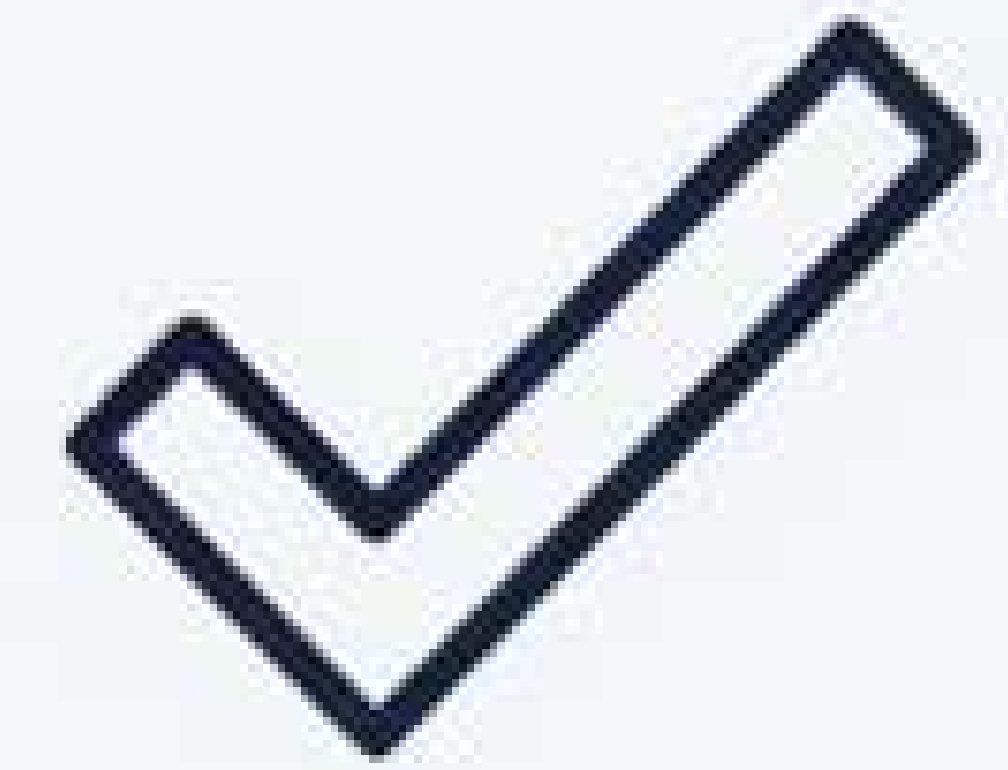

Scalable Architectures

We design systems that grow with your needs, ensuring long-term viability and performance.

Compliance Ready

Our processes and solutions are built to meet stringent government and industry standards.

Long-Term Support

We are partners for the entire lifecycle, providing managed services and ongoing support.

Core Strengths that Enable Mission-Critical Delivery.

PAN-India Delivery

Proven capability to execute complex projects anywhere in the nation.

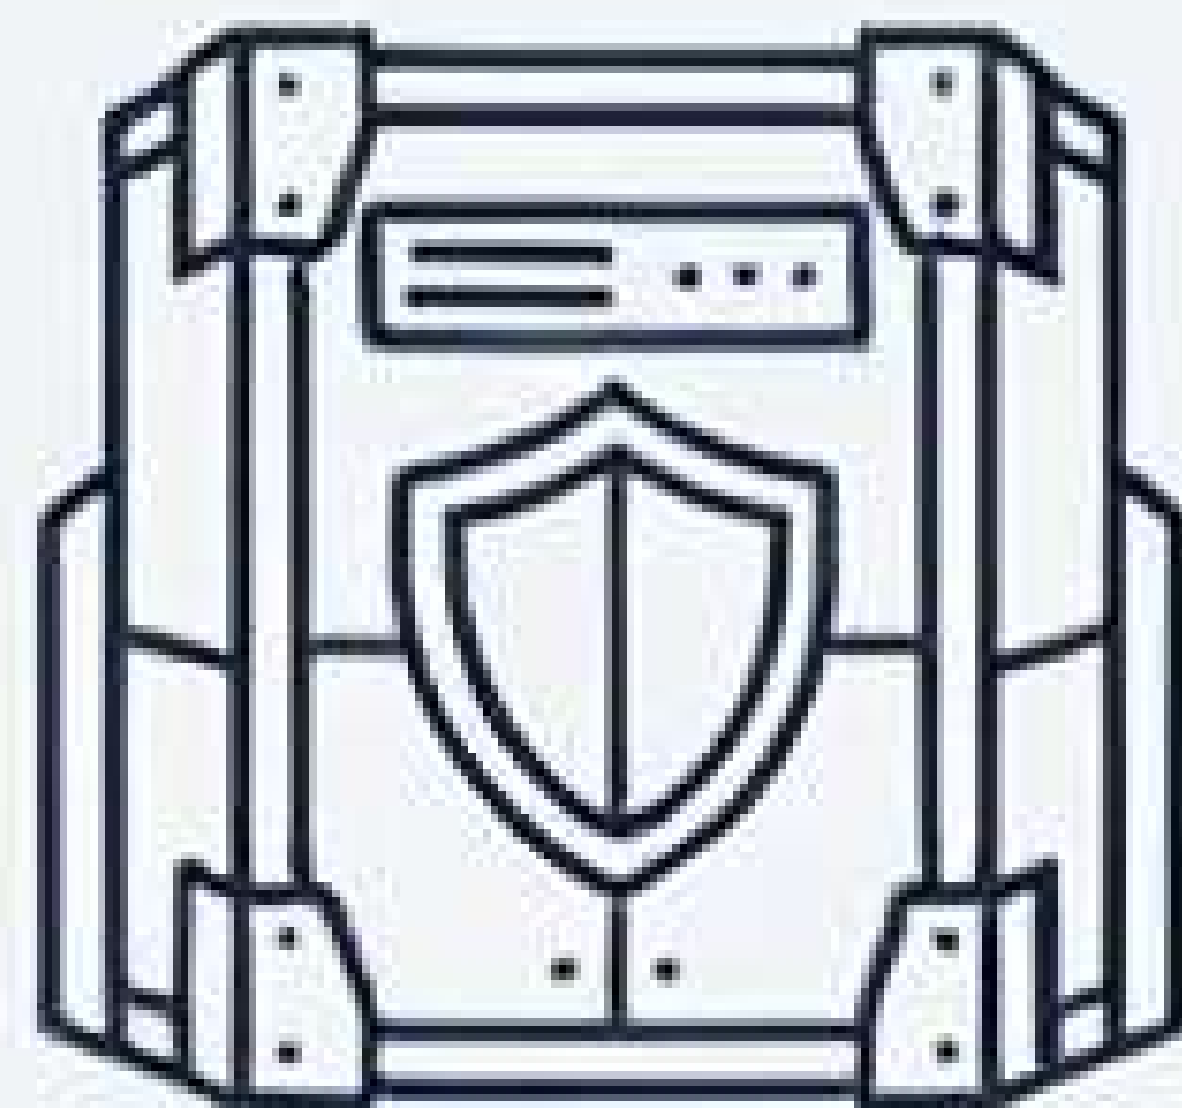

OEM-Agnostic Solutions

We architect the best-fit solution for the client, not for the vendor.

Multi-Domain Expertise

Deep, integrated knowledge across IT, Cybersecurity, ELV, and Mobility.

Mission-Critical Infrastructure

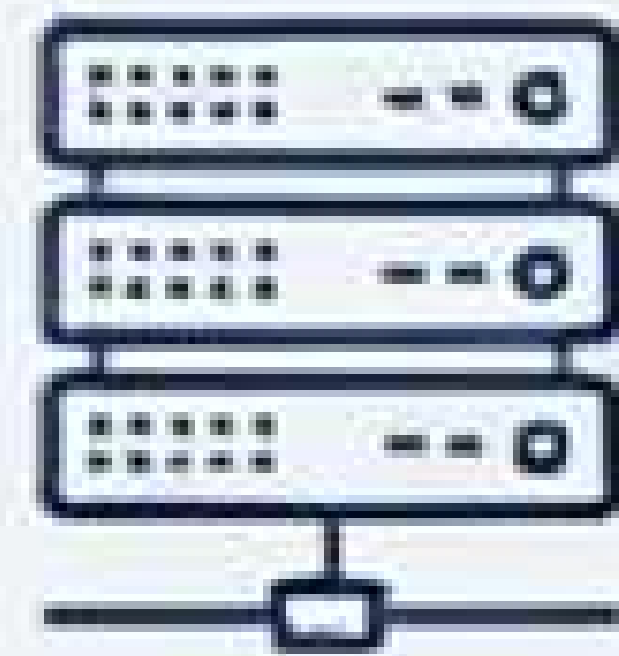

Specialized experience in high-stakes environments where failure is not an option.

Government Tender Experience

Expertise in navigating the complexities of public sector procurement and execution.

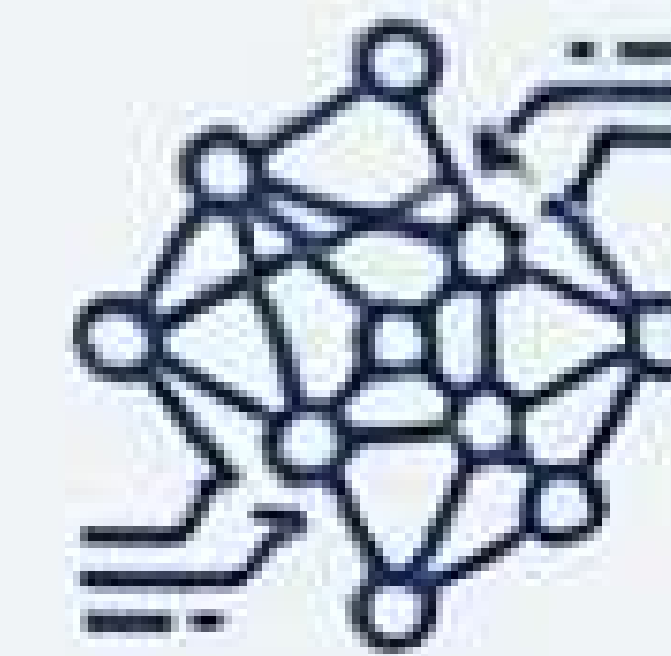

Our Comprehensive Capabilities: Foundational Infrastructure & Cybersecurity

Data Center Solutions

Design, build, and management of secure, high-availability data clusters.

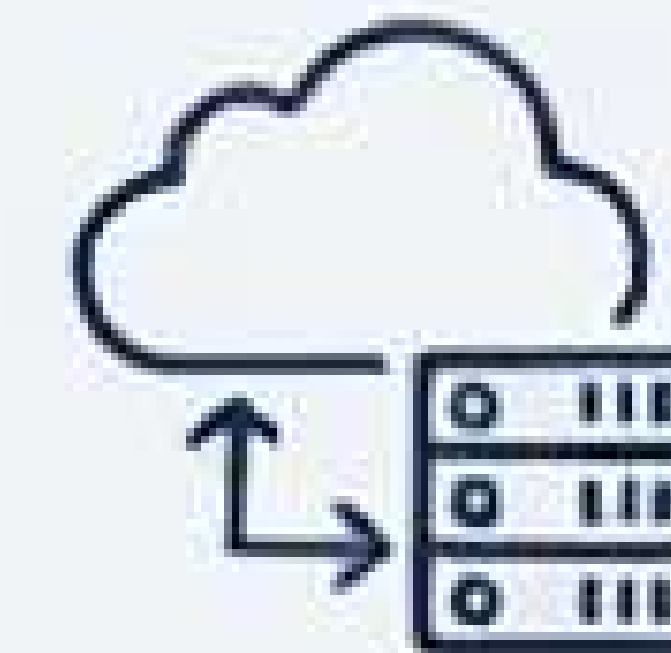

Networking Infrastructure

Architecting robust, scalable, and intelligent wired and wireless networks.

Cybersecurity & Zero Trust

Implementing proactive security for networks to protect critical assets.

Cloud & Hybrid Infrastructure

Engineering scalable, secure, and efficient cloud and on-premise environments.

Our Comprehensive Capabilities: Smart Systems, Managed Services.

AV & Smart Solutions

Integrated audio-visual and intelligent automation for smart buildings and campuses.

ELV Systems

Comprehensive Extra-Low Voltage systems for modern infrastructure needs.

IoT & Automation

Deploying sensor networks and automation to drive efficiency and intelligence.

Mobility & Automotive Engineering

Specialized engineering services for the evolving mobility sector.

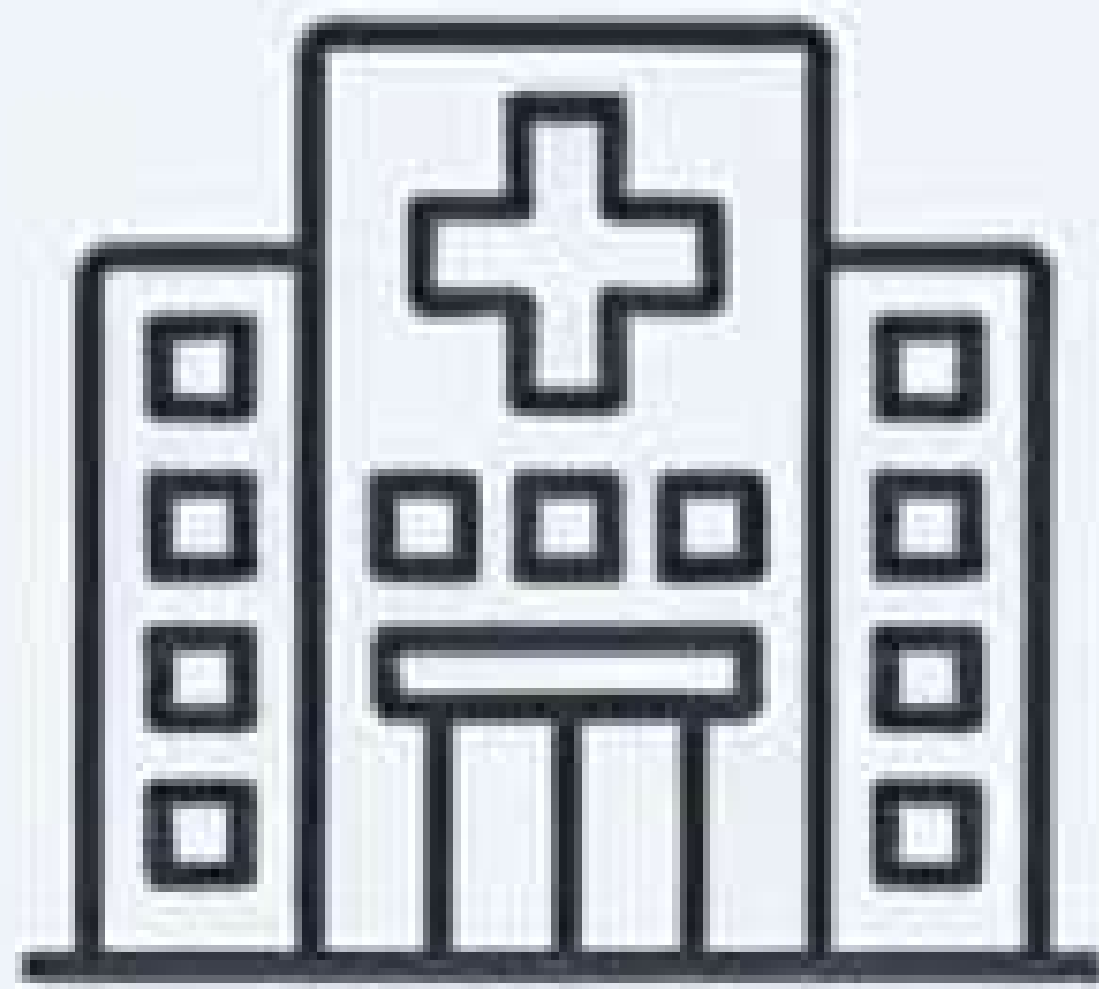

Managed Services

Proactive, long-term operational support for mission-critical systems.

Empowering India's Critical Sectors.

Proven Execution on Projects of National Importance.

AIIMS Rajkot

Critical healthcare infrastructure.

IIM Bodhgaya

Advanced educational campus technology.

Chhindwara Institute of Medical Science

Large-scale medical facility systems.

Government Medical Colleges (Multiple States)

Demonstrating scalable, repeatable excellence in the public healthcare sector.

Delivering Excellence Across Diverse, Large-Scale Infrastructure.

Noida International Airport

Mission-critical aviation technology and infrastructure.

Techno Data Center – Chennai

High-stakes private sector data infrastructure.

DLF Mall – Goa

Complex smart building and commercial systems integration.

Mahindra Enclave – Mumbai

Large-scale residential and smart-living infrastructure.

PAN-India Project Execution Excellence

A Foundation of Trust, Compliance, and Partnership.

Our Partner Ecosystem

Our OEM-agnostic approach means we are free to select from a broad ecosystem of best-in-class technology **leaders**. This ensures we architect and deliver the optimal, most effective solution for every client challenge.

Let's Engineer the Future, Together.

We believe innovation is built by people. Whether you are a potential client with a mission-critical challenge or a technology leader seeking a strategic partner, we welcome the conversation.
